

### INTRODUCTION

THANK YOU for helping us with our User Feedback program. Durokleen is a relatively new product; information you provide will be gratefully added to our growing store of knowledge concerning the product's efficacy and usefulness in specific applications. You will find that Durokleen is unlike any conventional disinfectant you may be currently using, being longer lasting, easier and safer to apply. Nevertheless, please read and adhere to the **SAFETY INSTRUCTIONS** set out below.

### GENERAL INSTRUCTIONS

PLEASE NOTE: Durokleen is not a cleaner. It is a long-term surface treatment that works in a completely different way to conventional disinfectants. It is a much safer, water-based solution that may be applied by spraying, soaking or misting onto a wide range of hard and soft surfaces. Once applied and allowed to dry, it forms a long-lasting (up to 100 days) biostatic barrier that actively kills and prevents the spread of a wide range of moulds, mildew, fungus, algae, bacteria, viruses — even pathogenic bacteria such as MRSA and Golden Staph. Before using Durokleen, please read the **INSTRUCTIONS FOR USE** set out below.

SAFETY INSTRUCTIONS		
CAUTION:	The product causes moderate eye irritation. Avoid contact with eyes or clothing. Wear eye protection. Wash hands and exposed skin thoroughly with soap and water after handling and before eating, drinking, chewing gum, smoking or using the toilet.	
CHEMISTRY:	<b>ACTIVE INGREDIENTS:</b> 3-(trihydroxysilyl) propyldimethyloctedecyl ammonium chloride Hydrogen peroxide <b>INERT INGREDIENTS:</b>	1.0% 1.0% 98.0%
FIRST AID:	If poisoning occurs, consult a medical doctor or call the Australian Poison Information Hotline 24/7 on 13 11 26. Have the container labels with you when telephoning or seeking medical treatment.	
IF IN EYES:	Hold affected eyes open and rinse gently with clean water for 15-20 minutes. If wearing contact lenses, remove them after rinsing eyes for 5 minutes, then continue rinsing eyes 10-15 minutes.	
STORAGE AND DISPOSAL:	Do not contaminate water, food or feed by inappropriate storage, use or disposal. Keep the product in its original container and re-seal carefully after use. The containers are not refillable. Store sealed containers at or below 25°C in a place that is not readily accessible to children or persons unfamiliar with the product's use. Dispose of empty container/s in accordance with local government regulations in a safe, appropriate manner, offering up for recycling if available.	

INSTRUCTIONS FOR USE	
<b>PROTECTING ABSORBENT MATERIALS: WEBBING AND CLOTHING INCLUDING WASHABLE LINENS, WEARABLE MATERIALS, FABRIC, BEDDING AND APPAREL</b>	
<b>Colour fastness or fabric staining</b>	If concerned, test for fabric staining and colour-fastness by treating and drying a small, concealed area prior to application of the product
<b>Dipping/Soaking</b>	Use a wash tub or machine for soaking items; treat clean items only and use clean, fresh rinse water
<b>Wash Tub</b>	Add 30ml of Durokleen to sufficient water to soak 2kg of fabric; 60ml for 4kg. Submerge items in the solution for 3 minutes, then remove and dry. Do not re-use the solution after dipping or soaking. Dry at room temperature or in a clothes dryer at the appropriate temperature setting
<b>Washing Machine</b>	Clean the items first, then select the machine's Rinse Cycle. To treat the items, add 60ml of Durokleen for Small load settings; 90ml for Medium; or 120ml for Large. Run the full rinse cycle, then dry at room temperature, or else use a dryer at the appropriate temperature setting
<b>Spray application</b>	Treat clean items only. Durokleen is formulated ready for use. Using the trigger pump or a pressure sprayer, shake the container well and spray the entire area to be treated with the nozzle 10cm - 15cm from the surface, ensuring surface is completely covered. Let stand until dry or use a dryer at the appropriate temperature setting. If spotting occurs, wipe with a moist cloth or sponge. Reapply every 3 months or when odour, staining or discolouration returns due to bacteria, mould or mildew

PROTECTING CARPETS AND UPHOLSTERY / FURNITURE:	
Clean the surfaces to be treated. Durokleen is formulated ready for use. Using the trigger pump or pressure sprayer, shake the container well and then spray the entire area to be treated with the nozzle 10cm–15cm from the surface, ensuring the item is completely covered. Let stand until dry. If spotting occurs, wipe with a moist cloth or sponge. Reapply every three months or when of if odour, staining or discolouration due to bacteria, mould or mildew returns.	

PROTECTING BATHROOM AND BUILDING SURFACES:	
Includes tubs, sinks and showers, vanity tops and drawers, shower curtains, grout and tiles, washable walls, wallpaper, walls, windowsills, stone or conglomerate surfaces, garbage cans, stainless steel and aluminium. Durokleen is formulated ready for use. Clean the surface to be treated. Using the trigger pump or pressure sprayer, shake the Durokleen container well and then spray the entire area to be treated with the nozzle 10cm - 15cm from the surface, making sure the surface is completely covered. Allow to dry thoroughly before use. If spotting occurs, wipe with moist cloth or sponge.	

PROTECTING FILTERS AND FILTER MATERIAL:	
Includes air filters, vacuum cleaner and aquarium filters, etc. Clean the items prior to application. Durokleen is formulated ready for use. Using the trigger pump or pressure sprayer, shake the container well and then spray the area to be treated with the nozzle 10cm–15cm from the surface, making sure the surface is completely covered. Dry thoroughly before use.
